

Course Assignment Requirements

This course assignment requires each group to design and conduct a small-scale questionnaire survey on an academic topic of interest, and to complete an analytical report based on the collected data.

I. Assignment Format

- Students shall work in **groups of three**.
- Each group shall select an academic topic of interest, formulate an appropriate survey topic, and conduct a questionnaire survey accordingly.

II. Questionnaire Requirements

- The questionnaire shall be closely related to the academic topic selected by the group.
- The questionnaire shall contain **no more than five questions**, and its total length shall not exceed **one A4 page**.
- The questionnaire shall be concise, clear, and easy for respondents to understand and complete.

III. Data Collection Requirements

- Each group shall collect **no fewer than 20 valid responses**.

IV. Submission Requirements

- Each group shall submit **an analytical report in English with a maximum length of 1,000 words**.

The report shall include:

- an introduction to the research topic and research questions
- a brief description of the questionnaire design
- data organization and analysis
- a discussion of the results and a brief conclusion
- charts or figures to support the presentation and analysis of the data
- a description of each group member's responsibilities and contributions

V. Additional Notes

- Data analysis shall be completed independently by the group members.
- The selected topic shall be clear and specific so that meaningful information can be obtained through a brief questionnaire.
- All charts and figures shall be clear, properly formatted, and directly relevant to the analysis.
